Projects

Coffee-Shop Web App

- A dynamic and responsive Coffee Shop website featuring a full menu page and a seamlessly integrated order form.
- The project includes an intuitive order history system using PHP, allowing efficient management and review of customer orders.
- Secure payment processing is implemented through Razorpay, ensuring smooth transactions. With a modular code structure and proper file linking, the website is both easy to maintain and scalable for future enhancements.
- Technologies Used: PHP, HTML, CSS, JavaScript, Razorpay.

Food-Delivery Web App

- Built a dynamic food delivery website using PHP with a user-friendly interface for browsing menus, placing orders, and secure payments.
- Integrated order history management, real-time data fetching, and smooth page navigation with XAMPP database connectivity. Focused on responsive design for an enhanced user experience.
- Technologies Used : HTML, CSS, PHP
